W03-P2: show reviews[0] info when DOM is loaded

The screenshot shows a web application running in a browser. The browser's address bar shows the URL `127.0.0.1:5500/demo/w03/reviews_starter_02/index.html`. The page title is "Our Reviews". The main content area displays a review card for Susan Smith, a web developer. The card includes a profile picture, the name "Susan Smith", the job title "WEB DEVELOPER", and a "Surprise Me" button. The browser's DevTools are open, showing the console and the source code. The console shows the log output of the review data, which is a JSON object with the following structure:

```
{id: 1, name: 'susan smith', job: 'web developer', img: 'https://res.cloudinary.com/diaqf3eq2/image/upload/v1596883334/person-1-ryfzsh.jpg', text: 'I'm baby meggings twee health goth +1. Bicycle rig..ie, cold-pressed four dollar toast everyday carry'}
```

The source code in the editor shows the following JavaScript code:

```
const img = document.querySelector("#person-img");
const author = document.querySelector("#author");
const job = document.querySelector("#job");
const info = document.querySelector("#info");

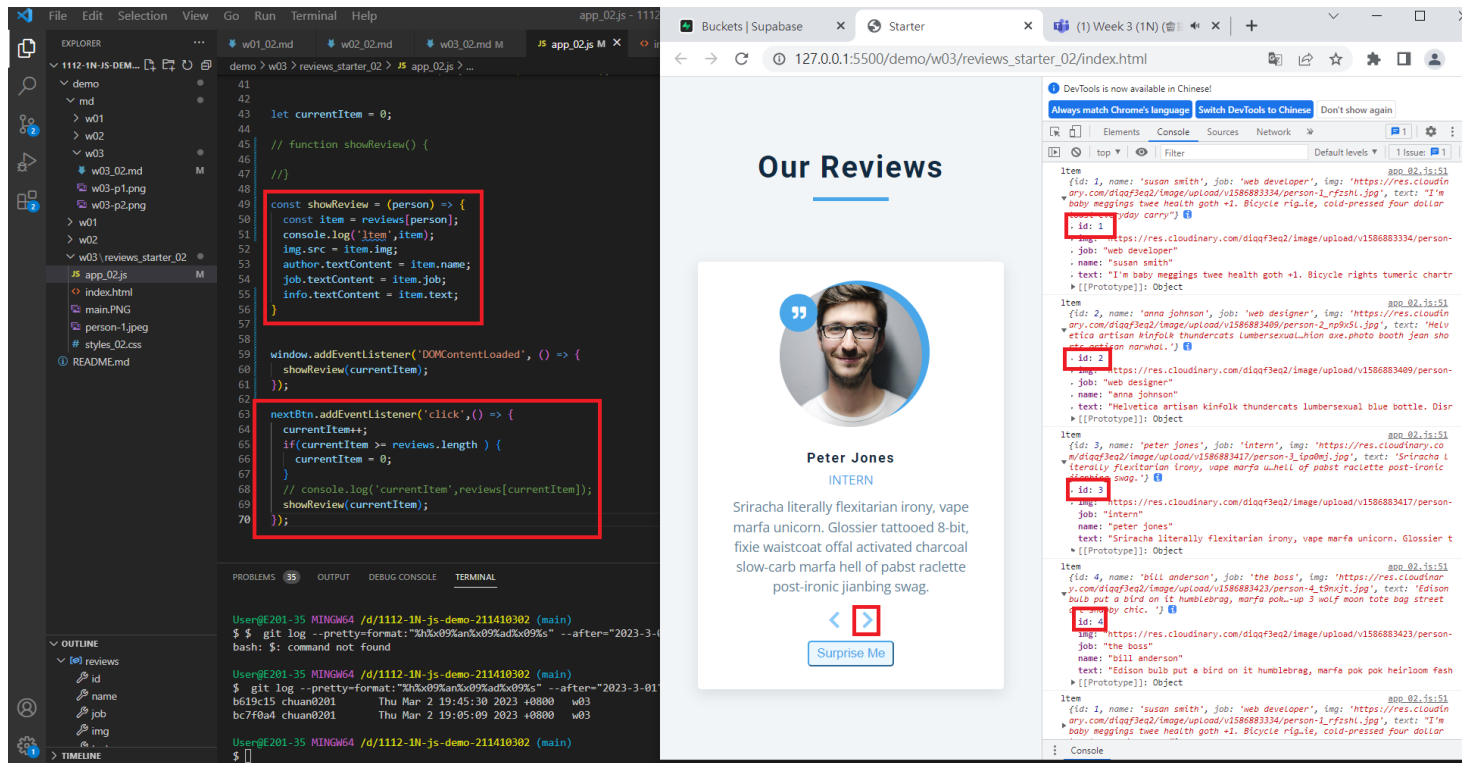

const prevBtn = document.querySelector(".prev-btn");
const nextBtn = document.querySelector(".next-btn");
const randomBtn = document.querySelector(".random-btn");

let currentItem = 0;

window.addEventListener("DOMContentLoaded", () => {
  const item = reviews[currentItem];
  console.log('item', item);
  img.src = item.img;
  author.textContent = item.name;
  job.textContent = item.job;
  info.textContent = item.info;
});
```

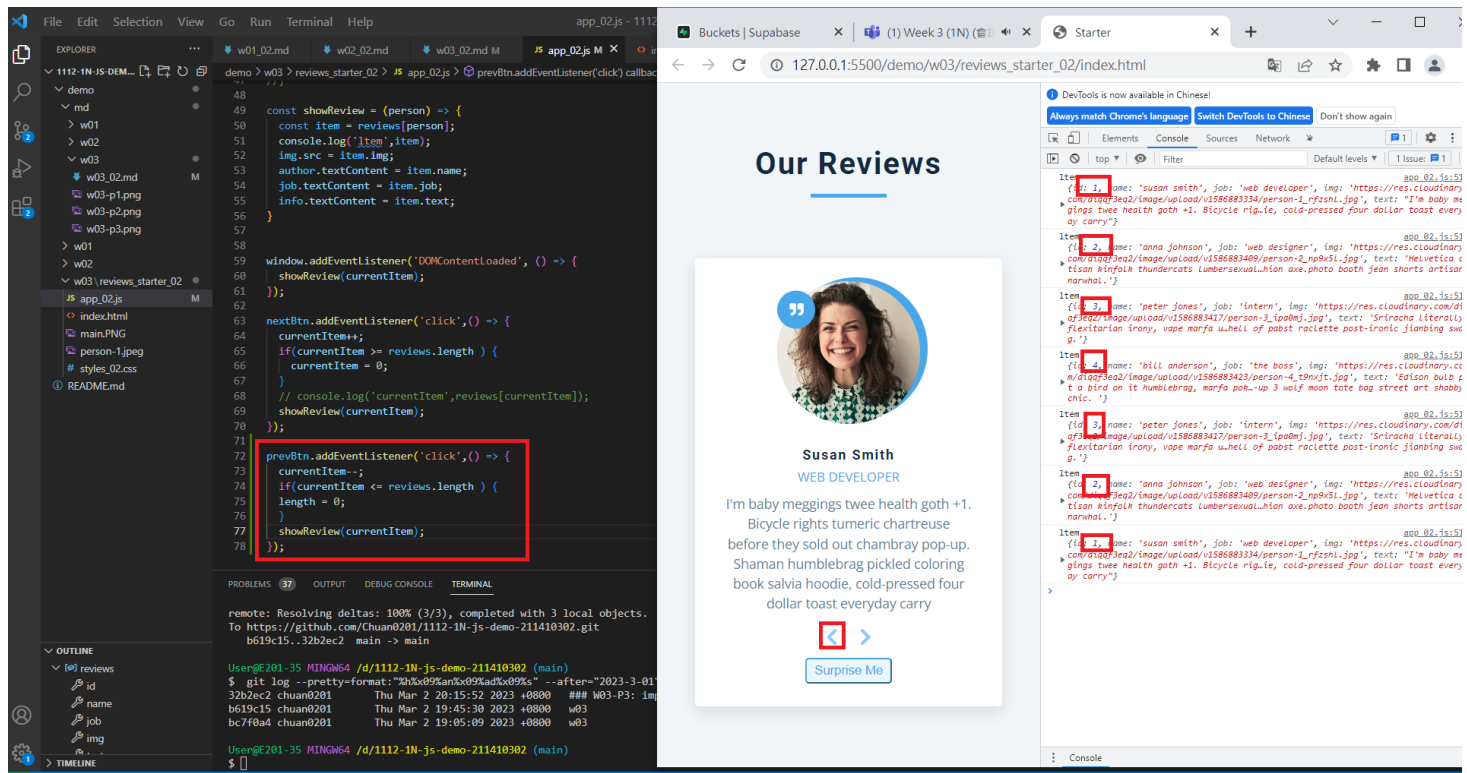

```
$ git log --pretty=format:"%h%x09%an%x09%ad%x09%" --after="2023-3-01"
